SUMMARY

Senior Frontend Engineer with 8 years of professional experience building enterprise-grade web applications and scalable platforms. Expert in React, Next.js, and TypeScript, with a strong focus on architecting highly reusable component systems and maintaining exceptional code quality. Proven track record of designing robust APIs, implementing comprehensive unit and integration testing strategies, and establishing CI/CD pipelines to ensure reliability and accelerate development.

CORE COMPETENCIES

- **Frontend & Architecture:** React, Next.js, TypeScript, JavaScript (ESNext), highly reusable component systems, scalable architecture.
- **Styling & UI:** CSS, Tailwind CSS, Radix UI, Storybook, custom design systems.
- **Testing & Quality:** Unit and integration testing, Playwright, Jest, Enzyme, Cypress, ESLint, Prettier.
- **Backend & API Design:** API design, REST APIs, GraphQL, NodeJS, NestJS.
- **DevOps & Tooling:** Git, CI/CD pipelines, GitHub Actions, Docker, Webpack, Vite, Nx.

WORK EXPERIENCE

Genentech (Roche) San Francisco, CA (Remote)
Frontend Engineer *May 2023 - Present*

- Architected a highly reusable design system in **React** and **Radix UI** with **Tailwind CSS**, improving UI consistency, accessibility, and developer efficiency across enterprise products.
- Spearheaded the redesign of the main clinical trial data product, migrating from a Vue.js web application to a Chrome extension in React, optimizing workflows for complex data integrations.
- Co-developed a full-stack **Next.js** application powered by a RAG system, enabling users to connect data sources and query data in real time via a conversational interface.
- Implemented JWT-based authentication and role-based access control in Next.js with **TypeScript** and React Query, collaborating closely with backend engineers to align on **API design** and enforce permission-based UI rendering.
- Increased stakeholder confidence by writing comprehensive end-to-end and integration tests with **Playwright** in the **CI/CD pipeline**, publishing results on GitHub Pages.
- Optimized application performance by implementing lazy loading, code splitting, and image optimization, significantly reducing load times across devices.

Descasio Lagos, Nigeria (Hybrid)
Senior Frontend Developer *May 2021 - Mar 2023*

- Led the design and implementation of an intuitive user interface using **React**, collaborating with software architects to create a scalable frontend architecture and accelerate development by 30%.
- Enhanced the development workflow by introducing automated unit and integration testing frameworks, including **Jest** and **Enzyme**, which led to a 20% decrease in bug reports.
- Utilized **Storybook** for documenting highly reusable React components, streamlining change management and ensuring clear communication of development processes.
- Established engineering standards for code quality, testing, and deployment across the team using **ESLint, Prettier, Husky, Lint-staged**, and **GitHub Actions**, accelerating CI/CD processes.
- Optimized frontend performance and load efficiency by identifying and resolving render bottlenecks using React Profiler and Lighthouse Audits, reducing bundle size by 30-40% and achieving a 35% faster load time.
- Drove a 40% improvement in React application performance by optimizing caching mechanisms, significantly boosting speed and user experience.

ActivEdge Technologies Lagos, Nigeria
Senior React Developer *Oct 2019 - Sep 2021*

- Played a pivotal role in a team of 3 frontend engineers to build a high-volume bank Settlement Solution, handling thousands to millions of transactions daily and boosting settlement rates by 80%.
- Spearheaded the development of critical modules using **React** with Redux for state management, RxJS for data streaming, and Axios for asynchronous API requests.
- Built dynamic data visualization dashboards using React and react-chartjs, streamlining management of user roles and permissions with Redux Toolkit.
- Enhanced system performance and user experience by adopting the native browser EventSource API for real-time data streaming.

Founders Lair Beijing, China (Remote)

Full Stack Engineer (Contract) *Oct 2020 - Feb 2021*

- Transformed user journeys and Figma designs into highly reusable **React** components, ensuring a consistent, intuitive user interface.
- Developed NodeJS RESTful APIs to power new features, focusing on robust **API design**, testable, maintainable, and well-documented code.
- Engineered a **CI/CD pipeline** for automated deployment of APIs to testing environments on Heroku and production servers on AWS.

SureTrade Business Solutions Nigeria

Frontend Developer *Mar 2018 - Oct 2019*

- Designed MongoDB database schemas and implemented server-side logic in NodeJS, building and testing REST API endpoints for multiple applications.
- Developed SureEdu, a school management portal in a team of 5, handling staff payroll and attendance tracking, student records, and guardian communications.
- Responsible for full-stack integration, connecting the JavaScript frontend to NodeJS backend services, developing user use cases, and converting business requirements into database models.

PROJECTS

OurNigeria ournigeria.ng

Senior Engineer *Feb 2026 - Present*

AI-powered Nigerian budget analysis and corruption tracking platform.

- Architected and built an enterprise-grade platform as an Nx monorepo managing 6 applications, including a **Next.js** citizen-facing web app, a Next.js admin dashboard, and a NestJS API backend.
- Built the Next.js frontend with React 19 and Tailwind CSS v4, featuring highly reusable components, 22 interactive chart types, URL state management, and responsive layouts.
- Designed and implemented robust REST APIs and a document ingestion pipeline in NestJS, processing 700+ documents with zero ingestion errors.
- Configured **CI/CD** with **GitHub Actions** for automated builds, **Playwright** end-to-end tests across 4 projects, and Docker Compose production deployment.

EDUCATION

University of Nigeria Nsukka, Enugu

BSc Computer Science, 4.1 CGPA *Graduation Date: Sep 2019*
