SUMMARY

Senior Frontend Software Engineer with 8 years of professional experience architecting and developing scalable, high-performance web applications using React, Next.js, and TypeScript. Proven expertise in building modular component libraries, implementing scalable frontend architectures, and optimizing applications for speed, accessibility (WCAG), and responsive design. Adept at ensuring code quality through rigorous automated testing (Jest, Cypress, Playwright) and CI/CD pipelines. Strong background in integrating RESTful and GraphQL APIs, with bonus experience in full-stack Next.js/Node.js development, Storybook, and building conversational AI interfaces.

CORE COMPETENCIES

- **Frontend Architecture:** React, Next.js, TypeScript, JavaScript (ESNext), Micro-Frontends, Monorepos (Nx), SSR/SSG.
- **UI & Styling:** HTML5, CSS3, Tailwind CSS, Radix UI, Responsive Design, Accessibility (WCAG, ARIA), Storybook.
- **Testing & Quality:** Jest, Enzyme, Cypress, Playwright, Testing Library, ESLint, Prettier, Code Reviews.
- **Build Tools & DevOps:** Webpack, Vite, Rollup, CI/CD, GitHub Actions, Docker.
- **API & Data:** RESTful APIs, GraphQL, React Query, Redux, Zustand.
- **Bonus Skills:** Conversational UI/Voice Interfaces, Full-stack (Node.js/NestJS), UX Research, Performance Optimization (Lighthouse).

WORK EXPERIENCE

Genentech (Roche) San Francisco, CA (Remote)
Frontend Engineer (React / TypeScript) *May 2023 - Present*

- Architected and developed advanced frontend features for a clinical trial data product, migrating a legacy Vue.js application to a modern **React** and **TypeScript** architecture.
- Built a modular, reusable design system using **React**, **Radix UI**, and **Tailwind CSS**, ensuring strict adherence to **accessibility (WCAG)** standards and responsive design principles.
- Co-developed a full-stack **Next.js** chat widget powered by a RAG system and **OpenAI APIs**, delivering a highly interactive **conversational UI** for real-time data querying.
- Optimized application performance for speed and scalability by implementing lazy loading, code splitting, and efficient asset delivery, significantly improving **Lighthouse** scores.
- Ensured exceptional code quality by writing comprehensive end-to-end tests with **Playwright** in the **CI/CD pipeline**, automating test reporting via GitHub Actions.
- Integrated **GraphQL** and **RESTful APIs** using **React Query** for efficient data fetching, caching, and state management, replacing legacy Redux implementations.
- Mentored junior developers through rigorous code reviews, fostering a culture of technical excellence and automated testing best practices.

Descasio Lagos, Nigeria (Hybrid)
Senior Frontend Developer *May 2021 - Mar 2023*

- Led the design and implementation of intuitive **React** and **TypeScript** user interfaces, collaborating with architects to build scalable frontend architectures that accelerated development by 30%.
- Wrote comprehensive unit and integration tests using **Jest** and **Enzyme**, establishing automated testing frameworks that decreased bug reports by 20%.
- Utilized **Storybook** for documenting modular React components, streamlining UX research, change management, and cross-team communication.
- Optimized frontend performance and load efficiency by identifying render bottlenecks with React Profiler, reducing bundle size by 30-40% using **Webpack** bundle analyzer and Rollup plugins.
- Established engineering standards for code quality and deployment using ESLint, Prettier, Husky, and **GitHub Actions**, accelerating CI/CD processes.
- Drove a 40% improvement in React application speed by optimizing caching mechanisms and ensuring seamless backend integration.

ActivEdge Technologies Lagos, Nigeria
Senior React Developer *Oct 2019 - Sep 2021*

- Spearheaded the development of critical modules for a high-volume bank Settlement Solution using **React** and **Redux**, boosting transaction settlement rates by 80%.

- Enhanced system performance and user experience by adopting native browser APIs for real-time data streaming, ensuring a highly responsive interface.
- Built dynamic, modular data visualization dashboards using React, streamlining user roles and permissions management.
- Developed a real-time account reconciliation solution, boosting the reconciliation of daily transactions by 60% through innovative transaction processing.

Founders Lair Beijing, China (Remote)
Full Stack Engineer (Contract) *Oct 2020 - Feb 2021*

- Developed **NodeJS RESTful APIs** and translated business requirements into efficient MongoDB database models and schemas.
- Transformed Figma designs into reusable **React** components and engineered a **CI/CD pipeline** for automated deployment to Heroku and AWS.
- Mentored two interns through frontend and backend projects, providing technical guidance and task management.

SureTrade Business Solutions Nigeria
Frontend Developer *Mar 2018 - Oct 2019*

- Designed MongoDB database schemas and implemented server-side logic in **NodeJS**, building and testing **REST API** endpoints for multiple client-facing applications.
- Responsible for full-stack integration, connecting the **JavaScript** frontend to NodeJS backend services, developing user use cases, and converting business requirements into database schemas and models.
- Devised comprehensive documentation for each application, detailing functions, capabilities, and features.

PROJECTS

OurNigeria ournigeria.ng
Senior Engineer *Feb 2026 - Present*

AI-powered Nigerian budget analysis and corruption tracking platform. 700+ budget documents, 708K+ vector embeddings, 37 states.

- Architected an AI-powered platform as an **Nx monorepo** managing 6 applications, demonstrating expertise in scalable, multi-app frontend architectures and **Next.js** (SSR).
- Built the citizen-facing frontend with **React 19** and **Tailwind CSS**, featuring 22 interactive chart types and responsive mobile layouts.
- Developed a **conversational UI** with SSE streaming for real-time chat responses, integrating complex **Node.js** (NestJS) backend pipelines.
- Configured robust **CI/CD** pipelines with GitHub Actions and automated **Playwright** end-to-end tests across web, dashboard, and mobile environments.

EDUCATION

University of Nigeria Nsukka, Enugu
BSc Computer Science - 4.1 CGPA *Graduation Date: Sep 2019*
