SUMMARY

Senior Frontend Developer with 8 years of experience designing and building responsive, high-performance web applications using React, Redux, TypeScript, and JavaScript. Proven track record of delivering production-quality applications from conception through deployment in collaborative, cross-functional teams. Experienced in REST API integration, cross-browser and cross-platform development, CI/CD workflows, and performance optimization. Passionate about clean code, component-driven architecture, and shipping MVPs quickly in startup environments.

CORE COMPETENCIES

- **Frontend Development:** React, Redux, Redux Toolkit, TypeScript, JavaScript (ES6+), HTML5, CSS3, responsive design, and cross-browser compatibility.
- **State Management & Data:** Redux, Zustand, React Query, RxJS, Axios, and REST API integration.
- **UI & Styling:** Tailwind CSS, Radix UI, Ant Design, Storybook, custom design systems, and Figma-to-code workflows.
- **Build & Tooling:** Webpack, Vite, Rollup, Git, GitHub Actions, ESLint, Prettier, and CI/CD pipeline configuration.
- **Testing & Quality:** Playwright, Jest, Cypress, Allure Reports, and automated E2E testing in CI/CD pipelines.
- **Performance:** Lazy loading, code splitting, CDN strategies, Core Web Vitals, Lighthouse profiling, and bundle analysis.
- **Collaboration:** Agile/Scrum, scope definition with PMs, backend collaboration on architecture, mentorship, and code reviews.

WORK EXPERIENCE

Genentech (Roche) San Francisco, CA (Remote)
Frontend Engineer (React / TypeScript) *May 2023 - Present*

- Spearheaded the redesign of the main clinical trial data product, migrating from a **Vue.js** web application to a **React Chrome extension**, optimizing workflows for clinical site integrations and enhancing user adoption.
- Architected a **reusable design system** in **React** and **Radix UI** with **Tailwind CSS**, improving UI consistency, accessibility (WCAG), and developer velocity across multiple product teams.
- Introduced **Redux** for state management and **React Query** for request caching, refactoring legacy class components to functional components and streamlining data flow across the application.
- Optimized application performance by implementing **lazy loading, code splitting, dynamic imports**, and efficient **CDN asset delivery**, reducing load times significantly as measured via **Lighthouse** and Chrome DevTools.
- Implemented **JWT-based authentication** and **role-based access control** in **Next.js** with **TypeScript** and **React Query**, using HTTP-only cookies for secure token handling and collaborating closely with backend engineers on auth architecture.
- Increased release reliability by integrating **Playwright end-to-end tests** into the **CI/CD pipeline** via **GitHub Actions**, automating test reporting with Allure Reports and configuring Slack notifications for build quality visibility.
- Maintained and extended the existing **Vue.js** codebase during the migration period, fixing bugs and shipping features in parallel with the React rebuild.
- Mentored a team of two junior developers (interns), fostering a culture of technical excellence and code quality through regular code reviews.

Descasio Lagos, Nigeria (Hybrid)
Senior Frontend Developer *May 2021 - Mar 2023*

- Led the design and implementation of an intuitive **React** user interface, achieving a **25% boost in user engagement** and collaborating with architects to create a scalable frontend architecture that accelerated development by **30%**.
- Optimized frontend performance by profiling render bottlenecks with **React Profiler** and **Lighthouse**, reducing bundle size by **30-40%** through rollup-plugin-visualizer and webpack-bundle-analyzer, achieving a **35% faster load time**.
- Drove a **40% improvement** in application performance by optimizing caching mechanisms across the **React** application.
- Enhanced development workflow by introducing **Jest** and **Enzyme** testing frameworks, leading to a **20% decrease** in bug reports and improved confidence in releases.
- Utilized **Storybook** for documenting React components, streamlining change management and supporting agile project management practices including user story planning and estimation.
- Established engineering standards using **ESLint, Prettier, Husky, Lint-staged**, and **GitHub Actions**, reducing errors and accelerating **CI/CD** processes across the team.
- Mentored junior engineers on frontend best practices, fostering high-quality, maintainable code across projects.

ActivEdge Technologies Lagos, Nigeria
Senior React Developer *Oct 2019 - Sep 2021*

- Built a high-volume **bank Settlement Solution** in a team of 3 frontend engineers, handling thousands to millions of daily transactions and boosting settlement rates by **80%**.
- Developed critical payment modules (MasterCard, VISA, Express-cash, E-commerce) using **React** with **Redux** for state management, **RxJS** for data streaming, and **Axios** for **REST API** integration.
- Built a real-time account reconciliation solution, boosting daily reconciliation by **60%** through innovative transaction processing and data management strategies.
- Adopted the native **EventSource API** for real-time data streaming, replacing socket.io for faster updates and a more responsive interface across browsers.
- Built dynamic data visualization dashboards using **React** and **react-chartjs** with **Redux Toolkit** and **Ant Design**.

Founders Lair Beijing, China (Remote)
Full Stack Engineer (Contract) *Oct 2020 - Feb 2021*

- Developed **NodeJS RESTful APIs** and translated business requirements into efficient database models, collaborating closely with the business team.
- Transformed Figma designs into reusable **React** components and engineered a **CI/CD pipeline** for automated deployment to Heroku and **AWS**.
- Mentored two interns through frontend and backend projects, providing technical guidance and task management.

SureTrade Business Solutions Nigeria
Frontend Developer *Mar 2018 - Oct 2019*

- Designed **MongoDB** database schemas and implemented server-side logic in **NodeJS**, building and testing **REST API** endpoints for multiple client-facing applications.
- Developed **SureEdu** in a cross-functional team of 5, a school management portal handling staff payroll and attendance tracking, student records (exams, reports, attendance), and guardian communications.
- Responsible for full-stack integration, connecting the **JavaScript** frontend to **NodeJS** backend services, developing user use cases, and converting business requirements into database schemas and models.
- Devised comprehensive documentation for each application and tested user-defined functions, triggers, and API endpoints to ensure reliability across platforms.

PROJECTS

OurNigeria ournigeria.ng
Senior Engineer *Feb 2026 - Present*

- Architected a full-stack platform as an **Nx monorepo** managing **6 applications**: **NestJS** API, **Next.js** citizen-facing web app with **React** and 22 interactive chart types (Recharts), Next.js admin dashboard, NestJS document ingestion pipeline, Next.js marketing landing page, and a Remotion video service.
- Configured **CI/CD** with **GitHub Actions** and **Docker Compose** production deployment with multi-stage Dockerfiles, health checks, memory limits, and **Traefik** reverse proxy routing.
- Implemented **Playwright** E2E tests across 4 test projects (web auth, dashboard auth, desktop Chrome, mobile Pixel 5), ensuring **cross-browser** and **cross-platform** reliability.

EDUCATION

University of Nigeria Nsukka, Enugu
BSc Computer Science - 4.1 CGPA *Graduation Date: Sep 2019*
