SUMMARY

Software Engineer with 8 years of professional experience building high-quality web applications using React, TypeScript, and modern JavaScript across healthcare, fintech, and enterprise consulting environments. Deep expertise in the React ecosystem including Redux, React Query, and component-driven architecture with strong CSS proficiency. Passionate about code quality through rigorous code reviews, automated testing (Jest, Playwright, Cypress), and agile development practices (Scrum, Kanban, TDD). Proven track record of collaborating with cross-functional teams, mentoring developers, and continuously evaluating new frontend technologies to deliver scalable, user-centric solutions.

CORE COMPETENCIES

- **React & Frontend:** React, Next.js, Vue.js, Redux, Redux Toolkit, React Query, Zustand, Radix UI, Ant Design, Storybook, and component-driven development.
- **Languages & Styling:** TypeScript, modern JavaScript (ESNext), CSS/Sass, Tailwind CSS, responsive layouts, and accessibility (WCAG/ARIA).
- **Testing & Code Quality:** Jest, Enzyme, Playwright, Cypress, ESLint, Prettier, Husky, Lint-staged, Allure Reports, Storybook, and TDD/BDD practices.
- **Build Tools & Performance:** Webpack, Vite, Rollup, code splitting, lazy loading, CDN strategies, Lighthouse, React Profiler, and bundle analysis.
- **Agile & Collaboration:** Scrum, Kanban, XP, code reviews, technical architecture reviews, mentorship, and customer-facing requirements gathering.
- **Backend & Infrastructure:** NodeJS, NestJS, REST APIs, PostgreSQL, MongoDB, Docker, GitHub Actions, CI/CD pipelines, and AWS.

WORK EXPERIENCE

Genentech (Roche) San Francisco, CA (Remote)
Frontend Engineer *May 2023 - Present*

- Spearheaded the redesign of the main clinical trial data product, migrating from a **Vue.js** web application to a **React** Chrome extension, optimizing workflows for clinical site integrations and enhancing adoption across teams.
- Architected a **reusable design system** in **React** and **Radix UI** with **Tailwind CSS**, improving UI consistency, accessibility (WCAG), and developer velocity across multiple product teams.
- Introduced **Redux** for state management and **React Query** for request caching, refactoring legacy class components to functional components with hooks, streamlining data flow and improving developer experience.
- Optimized application performance by implementing **lazy loading, code splitting**, dynamic imports, and **CDN** asset delivery, reducing load times significantly as measured via **Lighthouse** and Chrome DevTools.
- Implemented **JWT-based authentication** and **role-based access control** in the React frontend with **TypeScript**, using HTTP-only cookies for secure token handling and permission-based UI rendering.
- Increased release reliability by integrating **Playwright end-to-end tests** into the **CI/CD pipeline** with GitHub Actions, automating reporting with **Allure Reports** and configuring Slack notifications for build quality visibility.
- Co-developed a full-stack **Next.js** chat widget powered by a RAG system using OpenAI GPT models, LangChain, and Chroma vector database, enabling users to query data via a conversational interface.
- Mentored a team of two junior developers (interns), conducting regular **code reviews** and fostering a culture of technical excellence.

Descasio Lagos, Nigeria (Hybrid)
Senior Frontend Developer *May 2021 - Mar 2023*

- Led the design and implementation of an intuitive **React** user interface, achieving a **25% boost in user engagement** and collaborating with architects to create a scalable frontend architecture that accelerated development by **30%**.
- Optimized frontend performance by profiling render bottlenecks with **React Profiler** and **Lighthouse**, reducing bundle size by **30-40%** through rollup-plugin-visualizer and webpack-bundle-analyzer, achieving a **35% faster load time**.
- Drove a **40% improvement** in application performance by optimizing caching mechanisms across the **React** application, significantly boosting speed and user experience.
- Enhanced development workflow by introducing **Jest** and **Enzyme** testing frameworks, leading to a **20% decrease** in bug reports and enabling test-driven development practices.
- Utilized **Storybook** for documenting React components, streamlining change management and supporting **agile** project management practices including user story planning and estimation.

- Established engineering standards using **ESLint, Prettier, Husky, Lint-staged**, and **GitHub Actions**, reducing errors and accelerating CI/CD processes across the team.
- Mentored junior engineers on frontend best practices through **code reviews**, fostering high-quality, maintainable code across projects.

ActivEdge Technologies Lagos, Nigeria
Senior React Developer *Oct 2019 - Sep 2021*

- Built a high-volume bank **Settlement Solution** in a team of 3 frontend engineers, handling thousands to millions of daily transactions and boosting settlement rates by **80%**.
- Developed critical payment modules (MasterCard, VISA, Express-cash, E-commerce) using **React** with **Redux** for state management, **RxJS** for data streaming, and **Axios** for asynchronous API requests.
- Built a real-time account reconciliation solution, boosting daily reconciliation by **60%** through innovative transaction processing and data management strategies.
- Adopted the native **EventSource API** for real-time data streaming, replacing socket.io for faster updates and a more responsive user interface.
- Built dynamic data visualization dashboards using **React** and **react-chartjs** with **Redux Toolkit** and **Ant Design** UI for managing user roles and permissions.

Founders Lair Beijing, China (Remote)
Full Stack Engineer (Contract) *Oct 2020 - Feb 2021*

- Translated business requirements into efficient database models and developed **NodeJS RESTful APIs** with testable, maintainable, and well-documented code.
- Transformed user journeys and Figma designs into reusable **React** components, ensuring a consistent and intuitive user interface.
- Engineered a **CI/CD pipeline** for automated deployment of APIs to testing environments on Heroku and production servers on AWS.
- Mentored two interns through frontend and backend projects, providing technical guidance and supporting their professional development.

SureTrade Business Solutions Nigeria
Frontend Developer *Mar 2018 - Oct 2019*

- Developed **SureEdu**, a school management portal in a team of 5, handling staff payroll and attendance tracking, student records (exams, reports, attendance), and guardian communications.
- Designed **MongoDB** database schemas and implemented server-side logic in **NodeJS**, building and testing 15+ **REST API** endpoints for user management, payroll processing, and attendance tracking.
- Responsible for full-stack integration, connecting the **JavaScript** frontend to **NodeJS** backend services and converting business requirements into database schemas and models.
- Devised comprehensive documentation for each application, detailing functions, capabilities, and features. Tested user-defined functions, triggers, and API endpoints to ensure reliability.

PROJECTS

OurNigeria ournigeria.ng
Senior Engineer *Feb 2026 - Present*

AI-powered Nigerian budget analysis and corruption tracking platform. 700+ budget documents, 708K+ vector embeddings, 37 states.

- Architected the entire platform as an **Nx monorepo** managing **6 applications** including 3 **Next.js** frontends (citizen-facing web app with 22 interactive chart types via **Recharts**, admin dashboard, and marketing landing page) with **React 19**, **Tailwind CSS v4**, dark mode, and responsive mobile layouts.
- Built a multi-agent AI system using Mastra with 5 specialized agents, powered by a hybrid RAG pipeline combining pgvector similarity search with BM25 full-text search and Cohere reranking.
- Configured **CI/CD** with **GitHub Actions**, **Playwright** E2E tests across 4 test projects, and **Docker Compose** production deployment with multi-stage Dockerfiles, health checks, and memory limits.

EDUCATION

University of Nigeria Nsukka, Enugu
BSc Computer Science - 4.1 CGPA *Graduation Date: Sep 2019*
