SUMMARY

Senior Frontend Engineer with 8 years of experience building web applications and digital products across healthcare, fintech, civic tech, and enterprise environments. Deep expertise in the React ecosystem, with a proven track record of setting up applications from scratch, architecting design systems, and collaborating in cross-functional teams of designers, product managers, and backend engineers. Experienced in agency-style product development, delivering performant, accessible, and well-tested applications through CI/CD pipelines with a strong focus on code quality and developer experience.

CORE COMPETENCIES

- **Frontend Architecture:** React, Next.js, TypeScript, Vue.js, scalable component systems, design systems, monorepos (Nx), SSR/SSG, and responsive layouts.
- **Styling & UI:** Tailwind CSS, Radix UI, Ant Design, Storybook, Recharts, react-chartjs, and accessibility (WCAG/ARIA).
- **State Management & Data:** Redux, Redux Toolkit, React Query, Zustand, RxJS, and REST/GraphQL API integration.
- **Testing & Quality:** Playwright, Jest, Enzyme, Cypress, Allure Reports, ESLint, Prettier, and CI-driven QA.
- **Performance Optimization:** Code splitting, lazy loading, CDN strategies, Lighthouse, React Profiler, bundle analysis, and Core Web Vitals.
- **Build Tools & CI/CD:** Webpack, Vite, Rollup, GitHub Actions, Docker, Nx monorepo orchestration, and automated deployment pipelines.
- **Backend & APIs:** NodeJS, NestJS, REST APIs, PostgreSQL, MongoDB, JWT authentication, and role-based access control.
- **Collaboration & Leadership:** Cross-functional teamwork, Agile/Scrum, mentorship, code reviews, effort estimation, and product-minded development.

WORK EXPERIENCE

Genentech (Roche) San Francisco, CA (Remote)

Frontend Engineer *May 2023 - Present*

- Spearheaded the redesign of the main clinical trial data product, migrating from a **Vue.js** web application to a **React Chrome extension**, collaborating with product managers and UX designers to optimize workflows for clinical site integrations.
- Architected a **reusable design system** in **React** and **Radix UI** with **Tailwind CSS**, improving UI consistency, accessibility (WCAG), and developer velocity across multiple product teams.
- Optimized application performance by implementing **lazy loading, code splitting, dynamic imports**, and **CDN asset delivery**, reducing load times significantly as measured via **Lighthouse** and Chrome DevTools.
- Implemented **JWT-based authentication** and **role-based access control** with **TypeScript** and **React Query**, using HTTP-only cookies for secure token handling and permission-based UI rendering.
- Introduced **Redux** for state management and **React Query** for request caching, refactoring legacy class components to functional components and streamlining data flow across the application.
- Increased release reliability by integrating **Playwright end-to-end tests** into the **CI/CD pipeline**, automating reporting with **Allure Reports** on GitHub Pages and configuring Slack notifications for build quality visibility.
- Co-developed a full-stack **Next.js chat widget** powered by a **RAG system** using **OpenAI GPT models**, **LangChain**, **Vercel AI SDK**, and **Chroma** vector database, enabling users to query their data via a conversational interface.
- Mentored a team of two junior developers (interns), fostering a culture of technical excellence and code quality through structured code reviews.

Descasio Lagos, Nigeria (Hybrid)

Senior Frontend Developer *May 2021 - Mar 2023*

- Led the design and implementation of an intuitive **React** user interface in collaboration with software architects, achieving a **25% boost in user engagement** and creating a scalable frontend architecture that accelerated development by **30%**.
- Optimized frontend performance by profiling render bottlenecks with **React Profiler** and **Lighthouse**, reducing bundle size by **30-40%** through rollup-plugin-visualizer and webpack-bundle-analyzer, achieving a **35% faster load time**.
- Drove a **40% improvement** in application performance by optimizing caching mechanisms across the React application.
- Enhanced development workflow by introducing **Jest** and **Enzyme** testing frameworks, leading to a **20% decrease** in bug reports.
- Utilized **Storybook** for documenting React components, streamlining change management and supporting agile project management practices, including effort estimation and user story planning.
- Established engineering standards using **ESLint, Prettier, Husky, Lint-staged**, and **GitHub Actions**, reducing errors and accelerating CI/CD processes.

- Mentored junior engineers on frontend best practices, fostering high-quality, maintainable code across projects.

ActivEdge Technologies Lagos, Nigeria
Senior React Developer *Oct 2019 - Sep 2021*

- Built a high-volume **bank Settlement Solution** in a cross-functional team of 3, handling thousands to millions of daily transactions and boosting settlement rates by **80%**.
- Developed critical payment modules (MasterCard, VISA, Express-cash, E-commerce) using **React, Redux, RxJS**, and **Axios** for asynchronous API requests.
- Built a real-time account reconciliation solution, boosting daily reconciliation by **60%** through innovative transaction processing and data management strategies.
- Adopted the native **EventSource API** for real-time data streaming, replacing socket.io for faster updates and a more responsive interface.
- Built dynamic data visualization dashboards using **React** and **react-chartjs** with **Redux Toolkit** and **Ant Design** UI.

Founders Lair Beijing, China (Remote)
Full Stack Engineer (Contract) *Oct 2020 - Feb 2021*

- Translated business requirements into efficient **MongoDB** database models and developed **NodeJS RESTful APIs** with testable, maintainable, and well-documented code.
- Transformed Figma designs into reusable **React** components and engineered a **CI/CD pipeline** for automated deployment to **Heroku** and **AWS**.
- Mentored two interns through frontend and backend projects, providing technical guidance and structured task management.

SureTrade Business Solutions Nigeria
Frontend Developer *Mar 2018 - Oct 2019*

- Developed **SureEdu**, a school management portal in a team of 5, handling staff payroll and attendance tracking, student records (exams, reports, attendance), and guardian communications.
- Designed **MongoDB** database schemas and implemented server-side logic in **NodeJS**, building and testing **REST API** endpoints for multiple client-facing applications.
- Responsible for full-stack integration, connecting the **JavaScript** frontend to **NodeJS** backend services, and devised comprehensive documentation for each application detailing functions, capabilities, and features.

PROJECTS

OurNigeria ournigeria.ng
Senior Engineer *Feb 2026 - Present*

AI-powered Nigerian budget analysis and corruption tracking platform. 700+ budget documents, 708K+ vector embeddings, 37 states.

- Architected the entire platform from scratch as an **Nx monorepo** managing **6 applications**: **NestJS** API backend, **Next.js** citizen-facing web app with 22 interactive chart types (Recharts), Next.js admin dashboard, NestJS document ingestion pipeline, Next.js marketing landing page, and a Remotion video generation service.
- Built the **Next.js** citizen-facing frontend with **React 19**, **Tailwind CSS v4**, and **Recharts**, featuring dark mode, URL state management with nuqs, responsive mobile layouts, and SEO optimization (Open Graph metadata, JSON-LD schema, SSR).
- Configured **CI/CD** with **GitHub Actions** for automated builds, **Playwright** E2E tests across 4 test projects, and **Docker Compose** production deployment with multi-stage Dockerfiles, health checks, and memory limits.

EDUCATION

University of Nigeria Nsukka, Enugu
BSc Computer Science - 4.1 CGPA *Graduation Date: Sep 2019*
